PAUSE — 5 MINUTES

Break and chat

Given that our audience is already using AI, two questions:

Where is AI helping you?
One area where you use AI in your ministry to advantage - or considering it

What worries you?
One concern you have about AI and its use in your, role or your church

In twos or threes — we will take a few back in the room

AI CHRISTIAN PARTNERSHIP

AI Guidelines for Christian Ministry

Chris Goswami

Christian Partnership

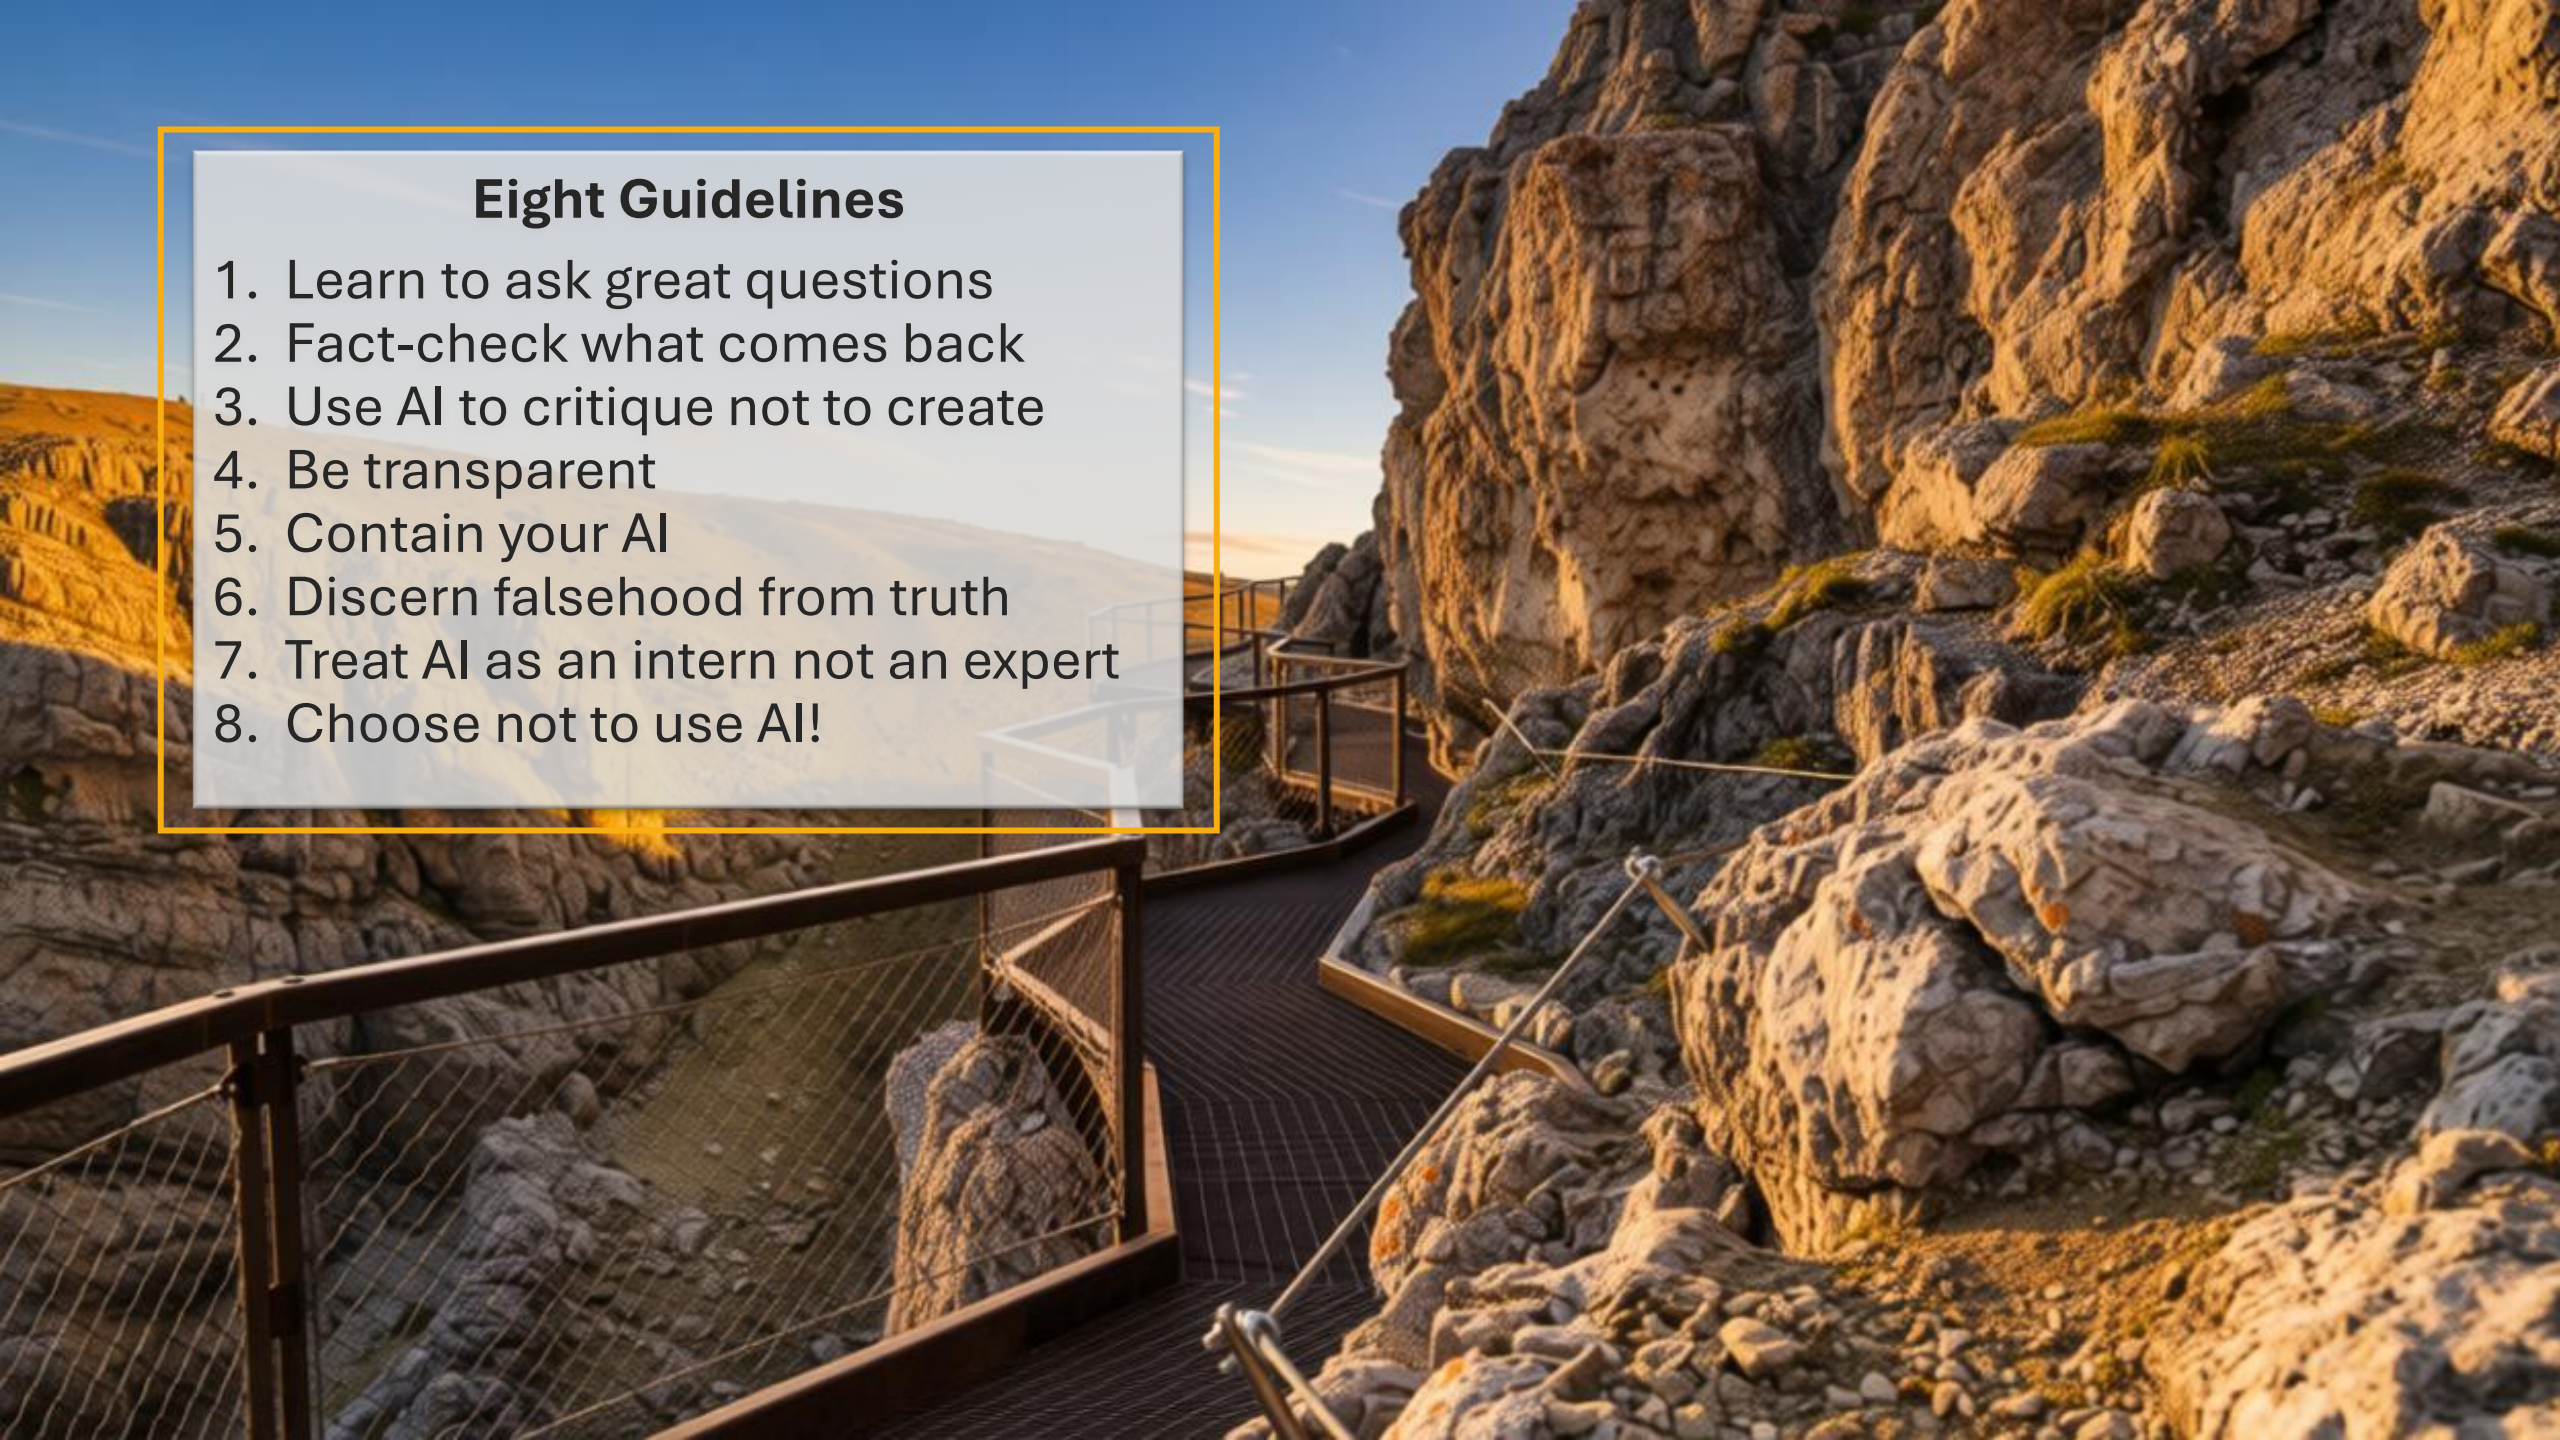

Why Guidelines?

- AI can bring significant benefits to Christian ministry
- And it also brings short, medium, and long-term costs
- Guidelines help you to use AI well - and to know when to avoid it

Six Ethical Principles

- Transparency
- Accountability
- Privacy
- Human dignity
- Caring for creation
- The common good

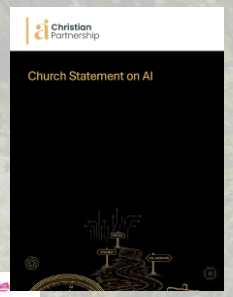

Eight Guidelines

1. Learn to ask great questions
2. Fact-check what comes back
3. Use AI to critique not to create
4. Be transparent
5. Contain your AI
6. Discern falsehood from truth
7. Treat AI as an intern not an expert
8. Choose not to use AI!

What to do next

Start the conversation on AI in your church / organisation
To help you:

- Template church AI Statement

- Discussion starters

- The Guidelines
